Beautiful Backyard

C O L L E C T I O N

Add a Beautiful Collection to Your Lawn or Patio

Thank you for choosing the

Beautiful Backyard

C O L L E C T I O N

Building Quality Outdoor Furniture Since 1992

Here are some of the benefits you experience when you choose from the Beautiful Backyard Collection

We are a small family-operated business. We care about you, and want you to be absolutely thrilled with our products, so we're here to serve you in any way we can.

Each piece of furniture was designed with quality, comfort and appearance in mind. When you examine our furniture, you'll see the highest quality material, superior structural strength, smooth rounded edges, and an elegant, appealing design.

All our 4' and 5' seats and backs come with a heavy aluminum rod which prevents sagging of the seats and backs.

Strong aluminum frame under dining tables

Aluminum rods under picnic tables

All our fasteners are stainless steel, and match the color of the material.

Our furniture is assembled with hidden stainless steel fasteners, so there are no ugly bolt heads, washers, or nuts showing on the outside.

The fasteners that are showing have a decorative head that matches the color of the material.

Take a look at the benefits of our Poly Furniture Collection

Our poly is a high density polyethylene (HDPE) that has no wood fibers, so unlike most other recycled lumber products, our material does not absorb moisture or chemicals.

For this reason, our furniture is very easy to clean. Whatever grease or other materials are spilled on it remain on the surface and can easily be wiped off.

Water absorption also causes other damage, such as rotting, cracking, and splintering. Our poly furniture will not rot, crack or splinter, and it can be left outside year-round.

Our poly material is also protected by ultra-violet (UV) stabilizers, which defend against fading from the effects of sunlight.

You never have to paint or stain our poly furniture, so you will never have peeling paint or the hassle of maintenance. And yet, your furniture will look beautiful for years to come.

Our poly material is an environmentally-friendly product made from recycled plastic jugs. Each year millions of plastic jugs are recycled for the production of our poly material.

We stand behind our product – we offer a limited lifetime warranty on all our parts.

CARE & MAINTENANCE OF POLY FURNITURE

Our poly furniture is a very easily-maintained product. All it needs is to be cleaned regularly with a non-abrasive soap and warm water. For a more aggressive cleaning, you can spray on a good, non-abrasive cleaner and scrub it thoroughly with a soft bristle brush. Then wash it off with a power washer.

Our furniture is assembled with all stainless steel fasteners which have very high corrosion resistance. However, in areas along the coast, where there is a high salt content in the air, the furniture should be rinsed often with fresh water to prevent salt water from collecting on the fasteners.

With proper care, our furniture will provide you with years of service and beauty.
