PAVILIONS

STRUCTURE STYLES

We offer three structure styles for our pavilions: **lean-to**, **hip**, and **A-frame**. Each of these structure styles are designed with unstained kiln-dried PT southern yellow pine wood, architectural shingles, a 1x8" tongue & groove ceiling, three-ply 2x10" beam headers, 7" sq. laminated wood posts, standard

wood post trim, stainless steel mounting brackets, and anti-rust fasteners. **Our lean-to structure style** is uniquely designed with a lean-to roof, 3/12 roof pitch, no roof overhangs, and 2x8" exposed rafters. **Our hip structure style** is uniquely designed with a hip roof, 5.5/12 roof pitch, 8" roof overhangs,

and 2x6" exposed rafters. **Our A-frame structure style** is uniquely designed with an A-frame roof, open gables with braces, 5.5/12 roof pitch, 8" roof overhangs, and 2x6" exposed rafters. We offer an extensive selection of customizations and add-ons for each structure style.
