GREENTREE PLAYSETS

QUALITY. CUSTOM. HANDCRAFTED.

FAQ

Q Is pressure-treated wood safe for children?

A Yes. Pressure-treated wood is non-toxic and cannot harm your children.

Q How often do we need to re-stain the wood?

A We recommend every 4 years. The better you take care of it, the longer it will last.

Q Can adults use the swings and slides?

A Yes. Slides and swings (except plastic gliders) can bear up to 180 lbs.

Q Can I customize a swingset to fit my particular need?

A Absolutely! You can mix and match different towers, swing beams, slides, etc. until you have a configuration you like!

MATERIALS USED

- Our swingsets are constructed of No. 1 Grade Southern Yellow Pine that has been pressure treated and kiln dried.
- All of our lumber is molded for a smooth surface and corners are rounded so there are no sharp edges.
- Composite decking is used on all exposed floors.
- All metal components such as glider brackets, handrails, fireman's poles, and monkey bar dowels are powder-coated for a beautiful, long-lasting finish.
- Swings have heavy-duty rubber grip chains.
- Plastic gliders and slides are constructed of durable, heat-resistant plastic.
- Wooden swing sets have the options of redwood stain and white stain.
- Sets are also available in white or almond vinyl, and gray poly.

Our swingsets are designed and built by skilled craftsmen who strive to keep your children's safety foremost. Wide bases and anchors by the A-frames keep them securely on the ground. Children should not be allowed to play on swingsets without adult supervision as accidents or injuries can occur. We reserve the right to make minor revisions to ensure safer play and better value.

MATERIAL OPTIONS

At Green Tree Playsets, we use a variety of quality materials to provide the best options to suit your family's needs. We use No. 1 Grade Southern Yellow Pine stained in red or white, Vinyl in white or almond, and Poly in gray.

Colored mulch, available in vibrant shades adds a decorative touch while maintaining safety and durability. The black mulch offers a sleek, modern look, effectively absorbing sunlight. The mulch is made from recycled rubber and designed to resist fading, mold, and decomposition. Our flexible and rubber borders provide a soft yet sturdy barrier that enhances safety. These borders are weather-resistant, durable, and low-maintenance, ensuring a clean and well-maintained play area for years to come.
